

MR. PAUL ICT ACADEMY

HOLIDAY WORK – SCENARIO-BASED ITEM (UNEB FORMAT)

SENIOR THREE – INFORMATION AND COMMUNICATION TECHNOLOGY (O-LEVEL)

Topic: Information Access and Sharing

Instructions:

- Read the scenario carefully before answering.
- Answer in full, applying what you have learnt in class to the real-world situation described.
- Write your work neatly (or type it) and keep it safe to hand in on the first day of next term.
- If you get stuck, message Mr. Paul on WhatsApp for help.

ITEM

Kalungi Peter is a member of a youth savings group in his village. The group wants to launch a campaign to educate members in different villages about a new government agricultural loan scheme, but members are scattered and cannot always meet physically. Some members have raised concern that some information circulating about the scheme on social media appears to be false, and the group does not know the best way to access accurate information and share it safely and quickly with all members.

The group has asked Kalungi, who studies ICT, for guidance.

Task:

- a) Explain the different methods/tools Kalungi can use to access accurate information about the loan scheme and to verify that it is credible.
- b) Explain how Kalungi can share this information with group members in different villages quickly, safely, and in a way that reaches everyone.
